

What do YOU want to do with DRONES?

Explore Opportunities in the Drone World!
Join us April 25th, 2018 9:00am to 3:00pm

Indigenous Innovators & Opportunities Workshop

Learn from the innovators at BC's InDro Robotics about the environmental, economic & social benefits that drones can provide for businesses & communities!

Morning session: Learn 'Opportunities' in the drone sector:

- 30+ ways drones can save communities time, money & lives
- Industry trends, self-employment & career opportunities
- Transport Canada's evolving drone regulations & their impact on EVERY Pilot/Operator, business & organization using or adopting drones in 2019

Afternoon session: Create a community capacity development plan & learn:

- How to attain a new Basic & Advanced Drone/RPAS Pilot Operator Certificates required by Transport Canada to fly for fun, research & work
- Budget tips & best practices to get the right equipment, training & expertise to 'launch' successful businesses & careers in the drone sector

Join **Kristin Kozuback** from InDro Robotics at the Stó:lō Community Futures Offices in Chilliwack (3rd floor, Bldg. 10, 7201 Vedder Road). Lunch & inspiration included. Call now to register: 604-858-0009

Start your journey today to do #GoodDroneWork!
